PROGRESS IN PLANT NUTRITION

PLENARY LECTURES OF THE XIV INTERNATIONAL PLANT NUTRITION COLLOQUIUM

Food security and sustainability of agro-ecosystems through basic and applied research

Guest editors:

W.J. Horst, A. Bürkert, N. Claassen, H. Flessa, W.B. Frommer, H. Goldbach, W. Merbach, H.-W. Olfs, V. Römheld, B. Sattelmacher, U. Schmidhalter, M.K. Schenk & N.v. Wirén

Preface **vii**

Plenary lectures

Plant nutrition research: Priorities to meet human needs for food in sustainable ways
I. Cakmak **3–24**

Access and excess problems in plant nutrition
M. van Noordwijk and G. Cadisch **25–40**

Symposium: Genetics and molecular biology of plant nutrition

Molecular mechanisms of potassium and sodium uptake in plants
P. Mäser, M. Gierth and J.I. Schroeder **43–54**

Symposium: Nutrient functions

A proposed role for copper ions in cell wall loosening
S.C. Fry, J.G. Miller and J.C. Dumville **57–67**

Symposium: The role of the apoplast in plant mineral nutrition

The functions of cell wall polysaccharides in composition and architecture revealed through mutations
N.C. Carpita and M.C. McCann **71–80**

Symposium: Mineral nutrition: plant quality and plant health

The impact of mineral nutrients in food crops on global human health
R.M. Welch **83–90**

Symposium: Salinity and plant – soil – water relations

Avenues for increasing salt tolerance of crops, and the role of physiologically based selection traits
R. Munns, S. Husain, A.R. Rivelli, R.A. James, A.G. Condon, M.P. Lindsay, E.S. Lagudah, D.P. Schachtman and R.A. Hare **93–105**

Symposium: Mineral element toxicity and resistance

Mechanisms of metal resistance in plants: aluminum and heavy metals
L.V. Kochian, N.S. Pence, D.L.D. Letham, M.A. Pineros, J.V. Magalhaes, O.A. Hoekenga and D.F. Garvin **109–119**

Symposium: Nutrient acquisition: mechanisms and modelling

Use of modelling to understand nutrient acquisition by plants
G.J.D. Kirk **123–130**

Symposium: Soil organisms/plant interactions

Malate plays a central role in plant nutrition
J. Schulze, M. Tesfaye, R.H.M.G. Litjens, B. Bucciarelli, G. Trepp, S. Miller, D. Samac, D. Allan and C.P. Vance **133–139**

Symposium: Fertilizer use with regard to optimum yield and environment

Precision agriculture: a challenge for crop nutrition management
P.C. Robert **143–149**

Symposium: Plant nutrition and sustainable development

Plant nutrient management for enhanced productivity in intensive grain production systems of the United States and Asia
A. Dobermann and K.G. Cassman **153–175**

Volume 247 No. 2

Competition in tree row agroforestry systems. 2. Distribution, dynamics and uptake of soil inorganic N
S.J. Livesley, P.J. Gregory and R.J. Buresh **177–187**

Variation in nutrient characteristics of surface soils from the Luquillo Experimental Forest of Puerto Rico: A multivariate perspective
S.B. Cox, M.R. Willig and F.N. Scatena **189–198**

Growth, water use efficiency, and proline content of hydroponically grown tomato plants as affected by nitrogen source and nutrient concentration
W. Claussen **199–209**

Yield, transpiration and growth of tomatoes under combined excess boron and salinity stress
A. Ben-Gal and U. Shani **211–221**

Assessment of Cr tolerance and accumulation in selected plant species
B. Mei, J.D. Puryear and R.J. Newton **223–231**

Contributions of current year photosynthate to fine roots estimated using a ^{13}C-depleted CO_2 source
E.A. Hobbie, D.T. Tingey, P.T. Rygiewicz, M.G. Johnson and D.M. Olszyk **233–242**

The potential of NIR spectroscopy to predict nitrogen mineralization in rice soils
C.A. Russell, J.F. Angus, G.D. Batten, B.W. Dunn and R.L. Williams **243–252**

Clinoptilolite zeolite and cellulose amendments to reduce ammonia volatilization in a calcareous sandy soil
Z.L. He, D.V. Calvert, A.K. Alva, Y.C. Li and D.J. Banks **253–260**

Traits of the invasive *Centaurea maculosa* and two native grasses: effect of N supply
P.S. Blicker, B.E. Olson and R. Engel **261–269**

Growth response of *Halimium halimifolium* at four sites with different soil water availability regimes in two contrasted hydrological cycles
M. Zunzunegui, M.C. Díaz Barradas, F. Aguilar, F. Ain Lhout, A. Clavijo and F. García Novo **271–281**

Microenvironmental and vegetational heterogeneity induced by phytogenic nebkhas in an arid coastal ecosystem
M.I. El-Bana, I. Nijs and F. Kockelbergh **283–293**

The effect of addition of different amounts and types of organic materials on soil physical properties and yield of wheat
A.R. Barzegar, A. Yousefi and A. Daryashenas **295–301**

Volume contents **303–305**

Author index **307**
